

# Pallet Delivery Guide

Please follow this quick and simple guide to make sure you manage the pallet delivery process correctly and safely.

Double check pallet size guide

Goods must not overhang the pallet

Secure goods to pallet

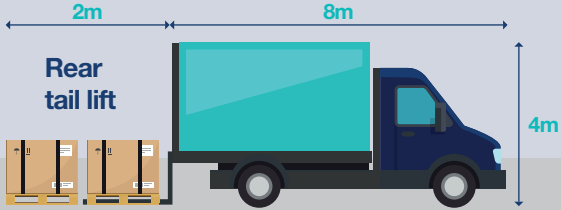

Clearly label your pallet

Max. weight 1200kg  
750kg for tail lift

Delivery and Collection between 9am - 5pm

Collection and delivery points must allow for an 18 tonne vehicle. This is a similar size to a dustbin wagon

2.8m minimum width access

Vehicles must be on level ground to operate the tail lift.

Pallet trucks will not operate on gravel or uneven surfaces
